

DEPENDABLE, SIMPLE, SAFE RENTALS

When you need to rent a boiler, our units are operation-ready, safe and reliable to meet your rental needs. Our knowledgeable technicians will assist you with start-up and instruction, a free service within 250 miles of our Evansville, Wyoming facility.

We put as much attention and care into our rentals as we do our sales models, so your rental will always be dependable, functional and safe. **Available in diesel-fired only or dual fuel, you only need to provide water, fuel and a power source.** Rental discounts are available for our customers in need of a temporary boiler while we repair their unit.

Northrop Boiler Works is proud to serve customers throughout the Rocky Mountain region, up to a 400-mile radius from our location in Evansville, WY. Our experienced technicians are available for emergency service and on-site service calls 24-hours a day, seven days a week, all year. For questions about the services we provide, a complete listing of the parts we carry or information about boiler sales and rentals, please contact us at 307-235-5049, or visit us online at www.NorthropBoiler.com. Northrop Boiler Works is the best in the business, and we are more than happy to address any questions or concerns you may have.

When you call Northrop Boiler Works, you can expect that person on the other end of the line will know the answers to your questions. With more than 60 years of experience, we understand your needs, and we will deliver on our standards of dependability, simplicity and safety.

To guarantee the dependability of your boiler, our components are always the highest quality with superior design, resulting in less longterm maintenance and repairs.

Second, we know that simplicity works. Complicated add-ons will break down, so we provide you with everything you need and will never try to oversell you on unnecessary or excessive parts and accessories.

Finally, safety is our top priority. All units are sold and repaired to ASME and NBIC standards and are inspected and certified by an authorized inspector.

DEPENDABLE, SIMPLE, SAFE
SERVICE

With 60 years of experience servicing oilfield boilers, we will accurately and efficiently diagnose and correct any problem you're facing with all boiler components, makes and models. We have the equipment and expertise to complete your repair.

Our newly remodeled facility was designed to install and repair your portable boilers, providing you with faster repair times and the most comprehensive testing and inspection procedures in the industry.

Your experience with Northrop Boiler will always be a positive one. Our commitment to customer communication, including detailed repair records, ensures that you are always informed about our repair work, and we provide you with information and procedures that will help prevent repeat repairs.
